CLOUD & DEVOPS ENGINEER (FRESHER)

AWS | Docker | Kubernetes | Linux | CI/CD

PROFESSIONAL SUMMARY

Motivated and detail-oriented AWS & Linux Administrator with hands-on experience in cloud infrastructure, containerization, and system administration. Skilled in deploying scalable and highly available applications using AWS, Docker, and Kubernetes. Strong knowledge in Linux systems, networking, and troubleshooting. Passionate about DevOps practices and automation. Seeking an entry-level Cloud / DevOps Engineer role to apply and grow technical expertise.

TECHNICAL SKILLS

- **Cloud:** AWS (EC2, S3, VPC, IAM, EBS, Load Balancer, Auto Scaling, CloudWatch)
- **Containers:** Docker, Kubernetes (Pods, Deployments, Services, Scaling)
- **CI/CD:** GitHub Actions (Basic)
- **OS:** Linux (CentOS/RedHat), Windows
- **Networking:** TCP/IP, DNS, IP Configuration
- **Linux Admin:** LVM, YUM/DNF/APT, System Monitoring
- **Tools:** Git, GitHub, kubectl
- **Services:** Apache, NFS, Samba, FTP, SSH
- **Security:** SELinux, firewalld
- **Virtualization:** VMware

INTERNSHIP

Linux Administrator Intern

Vsphere Technology, Bengaluru | Jan 2026 – Mar 2026

- Installed and configured Linux servers (CentOS/RedHat)
 - Managed virtual machines (cloning, snapshots)
 - Configured NFS, Samba, and Apache services
 - Implemented secure SSH access and user management
 - Monitored system performance and resolved issues
-

PROJECTS

Docker & Kubernetes Deployment

- Built Docker images and ran containers using Dockerfile
- Deployed application on Kubernetes using Deployments
- Created Pods, ReplicaSets , and Services (NodePort)
- Scaled applications and monitored using kubectl

CI/CD Pipeline using GitHub Actions

- Built automated pipeline for application build and deployment
- Integrated GitHub repository with workflow automation
- Deployed Dockerized application to server
- Reduced manual deployment effort and improved efficiency

AWS Highly Available Web Application

- Deployed application using EC2 and Load Balancer
- Configured Auto Scaling for high availability
- Designed VPC with subnets and routing
- Monitored using CloudWatch

Linux Server Configuration

- Configured Apache, SSH, FTP, and NFS services
 - Managed users, permissions, and system security
-

EDUCATION

B.E – The Kavery Engineering College

2022 – 2026 | GPA: 7.8

HSC – Govt Higher Secondary School | 67%

SSLC – Govt Higher Secondary School | 80%
